Centrix Plus

odoo Silver Partner

OFFICIAL ODOO SILVER PARTNER · KUWAIT

One Business. One System. Odoo ERP, Done Right the First Time.

Implementation, customization, migration, integration and support, all from one accountable team.

Accounting · Sales · CRM · Inventory · Purchase · Manufacturing · HR & Payroll · POS · eCommerce

WHY ODOO

Odoo Replaces the Patchwork

Odoo is an integrated business management suite. Finance, sales, stock, purchasing, manufacturing and HR all share **one database**, so every department works from the same live numbers.

Daily re-typing.
The same order gets entered in three places.

Slow month-end closes.
Finance waits on everyone else to reconcile.

Stock surprises.
Inventory on the screen doesn't match the shelf.

Stale decisions.
Management sees last week's numbers, not today's.

OUR ODOO SERVICES

Five Ways We Deliver Odoo

01	**Odoo Implementation**	Adoption-first rollout: we map your processes, configure Odoo, migrate data and train every role.
02	**Odoo Customization**	Upgrade-safe custom modules, reports, dashboards and workflow automation.
03	**Odoo Migration & Upgrade**	A move from Tally, QuickBooks, a legacy ERP or Excel, or an upgrade to the latest Odoo version, with every record reconciled.
04	**Odoo Integration**	Payments, banks, eCommerce, POS, shipping, WhatsApp and any third-party API connected to Odoo.
05	**Odoo Support & Maintenance**	SLA-backed helpdesk, bug fixes, version updates, health checks and ongoing training.

Community or Enterprise? We Advise on Both

Odoo Community	The open-source core with the essential apps. Suits lean teams starting their ERP journey.
Odoo Enterprise	Advanced features, mobile apps, Odoo Studio and official support, for businesses that need more depth.

One team, start to finish. The people who scope your project are the people who build and support it.

IMPLEMENTATION METHOD

Odoo Your Team Actually Adopts

1
Discovery & Process Mapping

We document how work really flows across your departments before configuring a single module.

2
Solution Design & Fit-Gap

We match Odoo to your processes, flag gaps early and plan any customization.

3
Phased Module Rollout

Modules go live in the order that pays back fastest, so momentum builds and change fatigue doesn't.

4
Data Migration

Masters and history move across with validation reports. Nothing is lost.

5
Role-Based Training

Each team learns its own workflows, in **Arabic or English**, not a generic manual.

6
Go-Live & Stabilisation

We support daily use while habits form, then hand over to ongoing SLA support.

~20 days
DEMO ENVIRONMENT

~4 months
FULL-SUITE GO-LIVE

Typical timeline, depending on modules, users and data volume.

MODULES WE IMPLEMENT

odoo

- Accounting
- Sales
- CRM
- Inventory
- Purchase
- Manufacturing
- Point of Sale
- HR & Payroll
- eCommerce
- Website

RESULTS IN NUMBERS

85%
faster order processing after Odoo go-live

150+
businesses automated

98%
of clients renew with us

10 yrs
of hands-on delivery across 5 countries

"Two ERP projects had already failed before Centrixplus. They started with our warehouse floor, not the software. Eighteen months on, every department runs on Odoo daily."

Meera S., Director, Distribution Group

WHY CENTRIXPLUS

Official Odoo Silver Partner. We follow Odoo's proven methodology and keep up with every release.

Engineers first. Your project is scoped by the people who build it.

Adoption over installation. Training and post-go-live tuning are part of every engagement.

Bilingual delivery. Arabic and English across Kuwait and the GCC.

More than ERP. AI voice agents, BotLook WhatsApp, custom software and digital marketing, all connected to Odoo.

Book Your Free ERP Consultation

In 30 minutes we'll map your processes, recommend the right edition, modules and hosting, and give you a transparent written scope and quote, even if Odoo isn't the right fit.
